Art Unit: 3662

1. Claims 1-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In each of independent claims 1 and 14, the use of "anamorphic symmetry" is indefinite and unclear in context.

Dependent claims 2-13 and 15-18 are unclear in that they depend from unclear independent claims 1 and 14.

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The examiner-cited prior art is of general interest for being similar to Applicant's invention; however, none of these references appears to have the claimed "anamorphic symmetry," insofar as the unclear claims may be interpreted.
